

Climb on Safely is the Boy Scouts of America's recommended guide for planning a BSA climbing/rappelling activity. This class is for the Unit Leader(s) who will supervise climbing at a natural site **or at a specifically designed facility, such as a climbing wall** or tower.

National Standards **require Climb on Safely** training for all unit level climbing and rappelling activities. One way to keep older youth in our programs is to get them out climbing. This class will show you how to keep it safe while they experience the fun!

As of January 2007 there is NO program fee for this training.
Contact Debbie Wickham at (973) 765-9322 ext. 239 with any questions.

March 17, 2009 – Council Service Center, 222 Columbia Turnpike, Florham Park
7:00 – 8:30 PM
